This was the experience I was hoping for. Just a few blissful moments floating around observing the pale blue dot. I think the length of this is just right. This is certainly going into my demo list for friends and newbies.. i thought for some reason that i was going to be in a space station but you start out in one, then it blows up, then you just sit in space for 4 min, with music, so i guess its nice but you will only play it like 1 or 2 times. This was the experience I was hoping for. Just a few blissful moments floating around observing the pale blue dot. I think the length of this is just right. This is certainly going into my demo list for friends and newbies.. i thought for some reason that i was going to be in a space station but you start out in one, then it blows up, then you just sit in space for 4 min, with music, so i guess its nice but you will only play it like 1 or 2 times. very nice experience just floating above planet earth for the last few seconds of your life, very nice and touching soundtrack, dev was also very kind and responsive to any problems i first had.. pretty fair for 4 dollars. i liked the soundtrack and the experience of being alone in space. it would be nice to add more things, such as a goal or mission.. very nice experience just floating above planet earth for the last few seconds of your life, very nice and touching soundtrack, dev was also very kind and responsive to any problems i first had.. Wonderful! I floated around the planet until presumably my astronaut ran out of resources. I had a great time identifying places on earth as I orbited over them and the trackpad movement worked well. Beautiful graphics. It took me awhile to find the wheel that opens the hatch, tricky that. Wouldn't normally think to walk into a darkspace and look back. Good fun. Would like to be able to reorient myself once orbiting but maybe just need to get the hang of that. Definitely recommend for the space fans.. I paid for this incomplete thing? Download Spacetours VR if you want something akin to what Abova VR tries to achieve. If you want to try a cool space experience for free, try Destination Pluto or Buzz Aldrin Cycling Pathways to Mars.
